A love for Autumn reflections

On a crisp autumn day, the earthy scent of fallen leaves and the chill on your nose remind us of nature's quiet transformations. There's a certain beauty in the changing seasons, even as they reflect life's own unpredictable shifts. Embracing change isn't always easy – it can be overwhelming and shake our world. But when we're surrounded by calmness and the love of those who stand with us, the small, hesitant steps into the unknown can lead to unexpected strength. Through our life journeys, we may find wisdom, new friendships and a new love of self.

For us at House of Christine, 2025 has marked the start of something new – a fine continuation of the journey we've been on for two decades. For 20 years we've strived to make high-quality, unique and fashionable headwear for all our friends, we've done this with passion for what we truly believe in and with determination to give you the best possible hair alternative. Our dream and vision have always been to make our beautiful headwear available to women all over the world and for this to come true, we've had to go new ways and make new friends and partners along the way.

We are still us - your favorite headwear team - and we still strive to provide you with a community where you feel safe, understood and where you find strength to embark on your new hair loss journey.

Thank you for your continued trust, dear friend, and for letting us stand beside you in a time when your life is entering a new era too.

Only the best is good enough for the beautiful you.

37.5® TECHNOLOGY

Comfort in clothing is dictated by our temperature and the humidity next to our skin, known as our microclimate. When our microclimate balances at 37.5% relative humidity and our core temperature balances at 37.5 degrees, we are in the optimal comfort zone.

37.5® Technology headwear and clothing helps control the core temperature by accelerating the movement of moisture vapour before it can turn to liquid sweat.

If we get warm and damp, the 37.5® products will dry faster – up to 5 times faster than a similar product without 37.5® Technology. And, when moisture is removed from our headwear and clothing, we stay warmer when it's cold and cooler when it's warm.

The active particles used in 37.5® are derived from natural sources such a coconut shells and volcanic minerals. A combination of these special sources and the product features makes this a rather unique and intelligent headwear line.
